

March 2, 1984

LB 714, 920

present law requires that prices be locked in for 45 days in the other states. The amendment requires the affirmation to be made that the affirmation goes to the lowest price in any other state on the filing date which is the 15th day of every month. There was no opposition to the technical change and brandy was removed because it was a wine derivative. The need for the technical amendment, the federal court decision has cast a cloud on the present law as it is written in Nebraska because it locks in prices in other states for 45 days. Under bill supplier...under the bill a supplier could change the prices in the other states after the filing date. In case you are interested, a number of other states having the affirmation...well, I don't have it exactly, in '75 it was 31 other states.

SPEAKER NICHOL: Senator Hannibal.

SENATOR HANNIBAL: Mr. Speaker, I have some problems with the affirmation law. I want to make that of record right now. I am not going to hold up the bill. This is...it is not a technical amendment. It is technical in its changing language. I just wanted to go on record that I have some problems with the affirmation law as it stands right now but I don't want to hold the bill up right now.

SPEAKER NICHOL: Okay, the question is the advancement of the bill. All those in favor vote aye, opposed nay. Please vote. Record, Mr. Clerk.

CLERK: 26 ayes, 0 nays on adoption of the motion to advance the bill.

SPEAKER NICHOL: LB 714 advances. LB 920.

CLERK: 920, Mr. President, by Senator Morehead. (Read title.) The bill was ready on January 9, referred to the Government, Military and Veterans Affairs, Mr. President. I have pending two separate committee amendments.

SPEAKER NICHOL: Senator Landis, are you going to handle the amendments? Okay.
